

# “ Warmth for Winter ”

Dogs, cats, and other animals are more than just “pets” to their homeless companions. These amazing animals are “forever guardians”, providing 24/7 protection, love, and emotional support needed for their owners to face their everyday challenges. These pets are their only true and loyal friends.

HEART, our non-profit organization, has been providing medical care, supplies, training, and other essential services for the past five years for pets owned by people who are experiencing homelessness in Orange County. Thanks to our dedicated staff and the support of our generous and caring donors, we have saved the lives of hundreds of homeless pets.

Through our new comprehensive “Safe Haven for Pets & Packs” program, we are now able to help many homeless pet owners acquire housing with their pets. No longer must these pet owners be forced to choose between acquiring housing and losing their pets. Our program plays a vital role in reducing and hopefully eliminating homelessness in Orange County.

Our services include spaying/neutering, parasite control, other needed medical care, temporary boarding/fostering of pets, and Emotional Support Animal (“ESA”) training and certification for these pets. As a result, pets and their owners are able to remain together in a healthy & safe manner and cannot be denied housing together.

Ongoing support is crucially needed for the thousands who are still without shelter, especially through the cold winter months, so please join us in helping provide warmth and much more for these beloved companions of the homeless.
