# **City of Rancho Santa Margarita Launches a New Way to Receive Community News**

**Rancho Santa Margarita Messenger delivers monthly community news and information via email.**

**Rancho Santa Margarita, CA** – The City of Rancho Santa Margarita has introduced a new way for residents to receive City news by way of an e-newsletter, the Rancho Santa Margarita Messenger. Dedicated to City news and events, this monthly e-newsletter will provide up-to-date information on a variety of topics that are important to the City and the community.

“The Messenger will be a convenient tool that residents can use to stay informed of projects, partnerships and initiatives that the City Council is working on to enhance our community,” says Gary Thompson, Mayor for the City of Rancho Santa Margarita.

Among the many features of the e-newsletter, the Messenger will highlight class programs and special events at The Bell Tower Regional Community Center. “For the first time, our Community Services Department is offering summer youth camps. They have an incredible variety of camps and I think it’s a great way to keep children engaged and learning,” shares Thompson.

To sign up to receive the Rancho Santa Margarita Messenger, please visit the City’s Web site at [www.cityofrsm.org](http://www.cityofrsm.org) and select e-Notify under the Quick Links on the left side of the homepage. The e-Notify feature will also allow residents to sign up to receive City announcements, job postings and electronic versions of Community Living Magazine, the City’s print newsletter and activity’s guide.
