To the Honorable Mayor and City Council

City of Rancho Santa Margarita  
Rancho Santa Margarita, California

It is with great pleasure that I present to you the City of Rancho Santa Margarita's twelfth Comprehensive Annual Financial Report. This report complies with the financial reporting model developed by the Governmental Accounting Standards Board (GASB) Statement 34. This financial reporting model is intended to improve financial reporting by adding significant information not previously available in local government financial statements.

In addition to the fund-by-fund financial information previously presented in the City's financial statements, we now include government-wide financial statements. The government-wide financial statements include a Statement of Net Assets that provides the total net equity of the City, including infrastructure, and the Statement of Activities that shows the cost of providing government services. These statements have been prepared using the accrual basis of accounting versus the modified accrual method used in the fund financial statements. A reconciliation report is provided as a key to understanding the changes between the two reporting methods. In addition, this reporting model includes an emphasis on the City's major funds as shown in the Governmental Fund Statements. These statements combined with other information are further analyzed in a narrative section called Management's Discussion and Analysis (MDA). The MDA provides "financial highlights" and interprets the financial reports by analyzing trends and by explaining changes, fluctuations and variances in the financial data. Furthermore, the MDA is intended to disclose any known significant events or decisions that affect the financial condition of the City.

The City of Rancho Santa Margarita took a leadership role in implementing GASB 34. The City's early implementation in 2001, before the 2003 deadline, enabled the City Council and residents of Rancho Santa Margarita to become more aware of the benefits and information contained in this financial reporting model.

The City added infrastructure capitalization in fiscal year 2002. In fiscal year 2003, the City implemented the modified approach for its pavement subsystem, which allows those infrastructure assets to be *non-depreciable*, while establishing a commitment from the City to maintain these infrastructure assets at a minimum acceptable level of condition.

In fiscal years 2004, 2007, 2008, 2010 and 2012, the City performed a condition assessment of the pavement subsystem, which is required every two years for Measure M transportation funding eligibility and every three years for financial reporting purposes, and affirmed that these infrastructure assets are above the condition level established by the government. On June 22, 2010, the City Council amended Resolution 09-11-08-02 for the purpose of implementing requirements of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definition*. The Comprehensive Annual Financial Report for fiscal year ended June 30, 2012, reflects the implementation of GASB No. 54. The City of Rancho Santa Margarita is proud to be on the leading edge of local governmental financial reporting.

The Comprehensive Annual Financial Report includes the financial activity for all funds of the City. The City provides a wide range of services including planning, building, public works, engineering, police and fire protection, recreation and general administrative activities. These services are delivered through a combination of City staff and contractual agreements.

Included as a part of this letter are several attachments that provide important information regarding the operations and economic environment of the City. The attachments are summarized as follows:

- A        Economic Condition and Outlook
- B        Major Projects for the Year and for the Future
- C        Other Information

The Comprehensive Annual Financial Report of the City of Rancho Santa Margarita for the fiscal year ended June 30, 2012 is hereby presented. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed information is accurate in all material respects and is reported in a manner designed to present fairly the financial position of the City. All disclosures necessary to enable an understanding of the City's financial activities have been included.

The preparation of the Comprehensive Annual Financial Report, in accordance with the GASB 34 financial reporting model, was made possible by the dedicated work of the Finance Division staff. Each member of the staff has my sincere appreciation for their contributions made in the preparation of this report.

Respectfully submitted,

Jennifer M. Cervantez  
City Manager

### ***ECONOMIC CONDITION AND OUTLOOK***

Rancho Santa Margarita is located 58 miles south-east of Los Angeles. The City is distinguished by its high-end residential neighborhoods and small-town charm. In Fiscal Year 2012, sales, motor vehicle in-lieu, and property taxes make up approximately 74% of the City's general revenues.

This is the City's twelfth fiscal year since incorporation, and the tenth consecutive year that the City provided and paid the full cost of all services transitioned from the County of Orange, including contractual Police Services, which account for 50% of General Fund expenditures.

For the fiscal year ended June 30, 2012, the City continued to fight the headwind of a significant economic downturn. The City Council's adopted budget funded all services by utilizing operating revenues. At year end, actual General Fund revenues exceeded expenditures by \$1,104,989. That surplus for the City's General Fund was \$946,162, or 595%, greater than the original budgeted surplus estimate of \$158,827. General Fund operating expenditures were reduced approximately \$429,218 from budgeted amounts through cost cutting measures without affecting core City service levels to residents and businesses.

Revenues for Fiscal Year 2012 increased over budget estimates by approximately \$883,395, or 6%. Increased sales tax revenue contributed \$295,438, while property tax-related revenues decreased \$68,657. The City also recorded revenue of \$483,048 from the cable TV franchise agreement with Cox Cable, when Cox elected to join the State's cable franchise agreement, thereby preempting its agreement with the City.

Sales tax revenues were the City's largest revenue source at \$5,348,047, or 38%, of general revenue for the fiscal year ended June 30, 2012. Motor vehicle fees and in-lieu taxes of \$3,807,220, made up the City's second largest revenue source at 27% of general revenues. Property taxes of \$1,999,106 accounted for 14% of general revenues.

The City expects sales tax revenue, which increased during Fiscal Year 2012, to continue a slow-to moderate-growth trend, as consumer and business spending for goods and services recovers. The City's outlook for current year property tax revenue continues to be cautious due to declines in its property tax valuation base that will not likely recover quickly. The prolonged economic downturn has affected consumer confidence, reduced business pricing power and investment, and worsened regional and state budgets positions. However, certain data points to slowly improving general business conditions, despite continued higher than normal unemployment, are anticipated in coming months.

### ***MAJOR PROJECTS FOR THE YEAR AND FOR THE FUTURE***

#### **Land Settlement**

The City settled a multi-year dispute with Orange County over land transfers from the City's incorporation in 2000. As part of the settlement, the City transferred to the County an environmentally significant 15 acre parcel of land it purchased in 2009. In return, along with other settlement transactions, the County conveyed 92 acres of land to the City that may be developable and economically useful. As a result of the settlement, the City will have the opportunity to develop one of the largest sports parks in South Orange County. Also, the City will take steps to restore and enhance at least 80 acres of other land to native habitat conditions. The settlement was finalized and recorded in Fiscal Year 2010, with restoration plan production and implementation activities to occur over the next one to two years.

#### **Public Safety**

Federal Bureau of Investigation (FBI) 2011 Uniform Crime Report statistics show Rancho Santa Margarita as the safest city in California, among those with a population greater than 35,000 residents. This is the eleventh consecutive year that the City has been identified as one of the safest communities in Orange County and the State.

#### **Public Works Improvements**

Major projects included a slurry seal on Alicia Parkway and Melinda Road at Santa Margarita Parkway (\$295,000) and annual residential overlays totaling \$494,723. The City also completed installation of the traffic signal battery backup system at a cost of \$202,687. Federal Community Development Block Grant (CDBG) funds were used for the crosswalk bulb-out project on Fundadores at a cost of \$194,436.

#### **Community Services Programs**

Beginning in fiscal year 2002, the City's Community Services Division has hosted an annual New Year's Eve event with great success. This event has been held each New Year's Eve since then, and is planned for December 31, 2012, which will also be the City's thirteenth anniversary. This fiscal year the city continued to provide concerts in the park during the summer months, with the sixth annual series being received with great success. Community Services staff continued adding programs and activities at the Bell Tower Regional Community Center since assuming operations of the facility from a community foundation in July 2008. The City continues to collaborate with community partner tenants who provide youth, teen and senior services programs in the City-owned Center and seeks to expand opportunities for community participation and utilization in the Center for the foreseeable future.

## ***MAJOR PROJECTS FOR THE YEAR AND FOR THE FUTURE, CONTINUED***

### **Housing Element Update**

The California Government Code requires all cities and counties to adopt a comprehensive, long-term general plan for the physical development of the county or city. The City of Rancho Santa Margarita adopted its General Plan in December 2002. The State has identified seven mandated elements for all general plans: land use, circulation, housing, conservation, open space, noise and safety. Of the required elements, only one, the housing element, must be reviewed by the State Housing and Community Development Department (HCD). In 2002, State HCD certified the City's General Plan Housing Element. State Law also requires that all housing elements be updated every five years, subject to the schedule of periodic housing needs review established by the State. The City adopted its Updated Housing Element on December 9, 2009, which the State certified on January 13, 2010.

### ***OTHER INFORMATION***

#### **Records Management**

The City Clerk's Office, a Division of the City Manager's Office, is responsible for the care and custody of all official records and documents for the City. This division provides for the efficient, economical, and effective controls over the creation, maintenance, disposition, and retention of all City records. Staff performs an annual inventory of existing records, including contract documents, as part of the City's records management "best practices." Continued imaging and migration of City records allows for efficient retrieval and safekeeping of important City documents, which allows for enhanced customer service to its residents and the community.

#### **Economic Stimulus Program Reporting**

As a recipient of Federal, State and County financial resources, the City is also responsible for reasonably ensuring that its internal control structure is adequate to provide compliance with applicable laws and regulations related to those programs. As part of the American Recovery and Reinvestment Act of 2009, the City has qualified for grant programs that include enhanced electronic reporting and monitoring requirements. To facilitate the operation of the various grant reporting components during the past, current and future fiscal years, the City has incorporated those elements into its current internal control structure, which is subject to ongoing monitoring and periodic evaluation by the management of the City and the City's independent auditors.

#### **Independent Audit**

The annual independent audit of the City's financial statements was conducted following the June 30<sup>th</sup> end of the fiscal year. The accounting firm of White Nelson Diehl Evans LLP was contracted by the City Council to perform the annual audit. As part of the City's annual audit, detailed examinations were made of the City's financial records and reports to verify their accuracy; and procedures were performed to determine the adequacy of the internal control structure, as well as to determine that the City has complied with applicable laws and regulations. The results of the City's annual audit for the fiscal year ended June 30, 2012, revealed no instances of material weaknesses or significant deficiencies in the internal control structure, or violations of applicable laws and regulations. The auditors' report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The City received what is commonly referred to as an unqualified audit opinion.

## ***OTHER INFORMATION, CONTINUED***

### **Interim Budgetary Review**

Additionally, the City maintains budgetary controls. The objective of the budgetary controls is to reasonably ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. The annual budgets for both Fiscal Year 2012 and 2013 were adopted by the City Council at a public hearing, following several budget development study sessions. Activities of the General, Special Revenue, Debt Service and Capital Projects Funds are included in the annual appropriated budget. The City also maintains an encumbrance accounting system as one method of accomplishing budgetary control. Additionally, the City Council has requested and received interim updates of budgetary performance and variance analysis. The updates are intended to provide additional support for staff to monitor and adjust budgeted revenues and expenditures based on comparisons to current and historical activity, and to aid City Council discussions and decisions regarding the City's budget.

### **Reserves Policy**

A continuing priority of the City Council has been to exercise prudent financial management, provide long term financial planning, and strong internal control of City asset uses, by adopting a policy regarding the City's accumulated net resources called fund balance. The City Council completed an annual review of the City's Reserves Policy and adopted to designate \$7,877,157 to several categories of available fund balance. Classifications essentially reflect a government's self-imposed limitations on the use of otherwise available current financial resources. The classification categories are: Council Strategic, Technology, Facilities, Vehicles, and Infrastructure and Emergency. The City Council has not established a minimum amount to be maintained in any of the classification categories.

### **Purchasing Policy and Contracts Administration**

The City has engaged in an ongoing assessment and enhancement of procedures and practices for procurement of goods and services as a component of its delivery of City services to residents and businesses. Revisions to the City's standardized agreements to ensure the quality and suitability of the City's desired program objectives and risk management practices were begun in the past fiscal year and will continue in the current year.

### **Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Rancho Santa Margarita for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2011. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such Comprehensive Annual Financial Report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. This is the eleventh consecutive year that the City has received this award. We believe our current report conforms to the Certificate of Achievement program requirements, and we are submitting it to GFOA for inclusion in the award program evaluations for this fiscal year ended June 30, 2012.

## INDEPENDENT AUDITORS' REPORT

Honorable Mayor and City Council  
City of Rancho Santa Margarita  
Rancho Santa Margarita, California

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Rancho Santa Margarita, California (the City), as of and for the year ended June 30, 2012, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Rancho Santa Margarita, California's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Rancho Santa Margarita, California, as of June 30, 2012, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated November 28, 2012 on our consideration of the City of Rancho Santa Margarita, California's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the information identified in the accompanying table of contents as management's discussion and analysis and required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis, the schedule of funding progress and the schedule of employer contributions related to the other post-employment benefit plan in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during the audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis, the schedule of funding progress and the schedule of employer contributions related to the other post-employment benefit plan because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison schedule has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Rancho Santa Margarita, California's financial statements as a whole. The introductory section, combining fund financial statements and individual nonmajor budgetary comparison schedules and statistical tables, are presented for purposes of additional analysis and are not a required part of the financial statements. The combining fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

# Management's Discussion & Analysis

**City of Rancho Santa Margarita, California**

## **CITY OF RANCHO SANTA MARGARITA MANAGEMENT'S DISCUSSION AND ANALYSIS**

As management of the City of Rancho Santa Margarita, California (City), we offer readers of the City of Rancho Santa Margarita's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year (FY) ended June 30, 2012. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report, and with the City's financial statements which follow this discussion.

### **Financial Highlights**

- The government-wide assets of the City exceeded its liabilities, at June 30, 2012, by \$130.7 million (*net assets*). Of this amount, \$17.1 million (*unrestricted net assets*) may be used to meet the government's ongoing obligations to citizens and creditors. Legal and contractual obligations restrict \$3.5 million of net assets for specific City programs. Investment in capital assets totals \$110.1 million.
- The government's total net assets increased by \$0.8 million during the fiscal year ended June 30, 2012. Revenues increased by \$0.8 million, due to \$0.5 million in one-time revenue from a cable grant agreement, a \$0.1 million increase in charges for services and \$0.2 million increase in sales tax revenue; offset by decreases in property tax revenue (\$0.04 million) and operating contributions (\$0.2 million). The net decrease from the prior year in total government expenses, due to capital projects spending fluctuations, matched the prior year's total net assets decrease, at \$1.6 million.
- As of June 30, 2012, the City's governmental funds reported combined ending fund balances of \$20.4 million, an increase of \$1.2 million in comparison with the prior year. Approximately 19.6 percent, or \$4.0 million of this total amount, has been allocated for specific obligations (*nonspendable, restricted, committed fund balance*), and 80.4 percent, or \$16.4 million is available for other spending purposes at the City Council's discretion (*assigned, unassigned fund balance*).
- At June 30, 2012, the unassigned fund balance of \$7.6 million and assigned fund balance of \$7.9 million for the City's General Fund total of \$15.5 million equaled 110 percent of total General Fund expenditures for the fiscal year ended June 30, 2012. However, the City Council has classified this \$15.5 million for specific purposes, including emergencies.
- The City's total long-term liabilities decreased by \$321,160 (2.7 percent) during the current fiscal year. This decrease reflects payment made for principal retirement on Certificates of Participation issued for the construction of City Hall and the Bell Tower Regional Community Center.

See Independent Auditors' Report

## Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's Basic Financial Statements. The City's Basic Financial Statements consist of three components: 1) Government-wide Financial Statements, 2) Fund Financial Statements, and 3) Notes to the Basic Financial Statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

### Government-wide Financial Statements

The *government wide financial statements* are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the City's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases in the net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements present information about the functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*). The governmental activities of the City include general government, building and planning, public safety, and public works.

The Government-wide Financial Statements can be found immediately following this discussion and analysis.

### Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The fund financial statements provide detailed information about the individual funds—not the City as a whole. Some funds are required to be established by State law. However, the City Council establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money. The City of Rancho Santa Margarita uses only *governmental funds* for accounting and reporting purposes.

See Independent Auditors' Report

**Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains various individual governmental funds. Information is presented separately in the Governmental Funds Balance Sheet, and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances, for the General Fund and the Capital Projects Fund which are considered to be major funds, and are presented in individual columns in the fund statements. Data from other non-major governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report. The governmental Fund Financial Statements can be found following the Government-wide Financial Statements.

### **Notes to the Basic Financial Statements**

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The Notes to the Basic Financial Statements can be found immediately following the Fund Financial Statements.

### **Other Supplementary Information**

In addition to the basic financial statements and included within the notes, this report also presents certain *required supplementary information* about the City's General Fund budgetary comparisons. The Notes to the Required Supplementary Information presents infrastructure and budget information. The Required Supplementary Information and Notes to the Required Supplementary Information can be found following the Notes to the Basic Financial Statements.

The combining statements referred to earlier in connection with non-major governmental funds are presented for all non-major Special Revenue Funds, Capital Projects Funds, and the Rancho Santa Margarita Non-Profit Debt Service Fund. The supplementary financial information also includes budgetary comparison schedules for the non-major governmental funds to demonstrate compliance with the annual budget as adopted and amended. These combining and individual fund statements and schedules can be found immediately following the Notes to the Required Supplementary Information.

See Independent Auditors' Report

The City's *blended component unit*, the Rancho Santa Margarita Non-Profit Corporation, although legally separate, functions at the discretion and direction of the City's management. Its financial position and results of operations, therefore, have been included as an integral part of the primary government, and are presented in the non-major fund financial statements and schedules.

## **Government-wide Financial Analysis**

The government-wide financial statements provide long-term and short-term information about the City's overall financial condition. This analysis addresses the financial statements of the City as a whole.

The largest portion of the City's net assets (84 percent) reflects its investment in capital assets (e.g., land, buildings, improvements other than buildings, equipment, infrastructure, and construction in progress), less any related debt used to acquire those assets, that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Overall, Citywide revenues for the fiscal year ended June 30, 2012 increased by \$0.72 million a 4 percent increase over the prior year. Sales tax revenue increased by \$0.18 million. Charges for other service increased \$0.08 million and other revenues increased by \$0.03 million.

- Total program revenues of \$4.4 million were 24 percent of total revenues.
- Total general revenues of \$14.2 million were 76 percent of total revenues.

Total related expenses decreased by \$1.6 million, an 8.5 percent decrease from the prior year. Public Works expenditures, which account for 25 percent of the total expenditures, were used primarily for slurry seal and overlay projects throughout the City. Public Safety expenditures accounted for 43 percent of total current expenditures. Expenditure decreases reflected the changeover in staffing which delayed the completion and expenditures for planned public works projects.

## **Financial Analysis of the Government's Funds**

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

***Governmental funds.*** The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information may be useful in assessing the City's financing requirements.

As of June 30, 2012, the City's governmental funds reported total combined ending fund balances of \$20.39 million, an increase of \$1.15 million from the prior year. Approximately 43 percent of the City's governmental funds ending fund balances, or \$8.86 million, constitutes *assigned fund balance*, which have been classified by the City Council for specific uses. Approximately 38 percent of the City's governmental funds ending fund balances, or \$7.71 million, constitutes *unassigned fund balance* which is available for spending at the government's direction. *Restricted fund balance* of \$3.82 million, or 19 percent is available to: 1) pay debt service (\$0.85 million) and 2) use for specific purposes as required by special revenue funds (\$2.61 million). The remainder of fund balance, \$0.36 million, is *committed* to indicate that it is not available for new spending, because it has already been committed to: 1) liquidate contracts and purchase orders of the prior period (\$0.33 million), 2) a reserve for self-insurance deductible liability (\$0.03 million).

### **General Fund Financial Highlights**

The general fund is the chief operating fund of the City. At June 30, 2012, assigned fund balance was \$7.97 million and unassigned fund balance of the general fund was \$7.71 million, while total fund balance was \$15.68 million. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 54 percent of the total General Fund expenditures. As mentioned above, however, the City Council has classified the assigned fund balance \$7.97 million for specified purposes.

For the fiscal year ended June 30, 2012, the cash and investments balance in the General Fund was \$15.48 million, an increase of \$0.71 million from the prior fiscal year.

Overall, general fund revenues for the fiscal year ended June 30, 2012 increased by \$0.58 million, or 4 percent, over the prior year. Individual components of this change are summarized as follows and refer to comparisons detailed in the Summary of Changes in Net Assets presented on a prior page:

- Property tax revenues of the General Fund decreased by \$0.04 million, to \$2.00 million, due to decreases in assessed valuations.

See Independent Auditors' Report

- Sales tax revenues increased \$0.18 million, to \$5.35 million, due to the effects of increased general consumer spending and auto sales.
- Investment income revenues increased by \$0.03 million, to \$0.91 million, due to the overall changes in the economy and the calculations for fair market value on investments.

Changes in General Fund expenditures, by function, occurred as follows during the year ended June 30, 2012:

- General government expenditures increased by \$0.12 million, to \$3.86 million. This reflects a increase in professional services provided by independent contractors.
- Public safety expenditures increased by \$0.15 million to \$7.50 million, due to increased contract costs associated with police services provided by the Orange County Sheriff's Department. Public safety expenditures were 53 percent of total General Fund expenditures.
- Public works expenditures decreased by \$0.05 million, to \$1.91 million, with the primary decrease being related to staffing vacancies.
- Building and planning expenditures decreased by \$0.19 million, to \$0.95 million, reflecting a slight drop in building and development activity within the city.

### **General Fund Budgetary Highlights**

Differences between the General Fund expenditures and the final amended budget were \$0.43 million and can be briefly summarized as follows:

- \$0.19 million in miscellaneous decreases in general government activities.
- \$0.01 million in increases allocated to public safety activities.
- \$0.25 million in decreases for building and planning activities.

These overall decreases can be attributed to the conservative spending maintained through the fiscal year as well as the conservative budgeting of anticipated revenues for the year. The original general fund budget was amended to increase general fund expenditures by \$0.13.

### **Other Major Funds Budgetary Highlights: Capital Projects Fund**

The Capital Projects Fund accounts for street, bridge, traffic signal and other circulation related capital projects funded by grants, fees and interest revenue. Fund balance decreased by \$0.03 million due to expenditures of \$1.33 million in capital outlay for circulation capital projects. The fund balance is \$1.1 million of which \$0.9 million is assigned for future capital project expenditures.

## Capital Asset and Debt Administration

### Capital Assets

The City's investment in capital assets for its governmental activities as of June 30, 2012, amounts to \$121.48 million, net of accumulated depreciation. This investment in capital assets includes land, buildings, system improvements, machinery and equipment, park facilities, roads, highways, and bridges. The total decrease in the City's investment in capital assets for the current fiscal year was .01 percent.

Major capital asset transactions during the current fiscal year included the following:

- Additions to construction in progress were \$0.41 million included the included design work for projects to be completed in future years for various street, traffic, and bridge improvements.
- Infrastructure additions for the year totaled \$0.45 million related to the completion of the traffic signal battery backup and crosswalk bulb-out projects.
- Machinery and Equipment acquisitions of \$0.02 million included an addition to the City's police service vehicles.

Additional information on the City's capital assets can be found entitled Note 4 – Capital Assets in the Notes to the Basic Financial Statements section of this report.

The City elected to use the modified approach in reporting its pavement subsystem. Under the modified approach, infrastructure assets that are part of a network or a subsystem of a network are not required to be depreciated as long as two requirements are met. First, the government shall manage the eligible infrastructure assets using an asset management system and secondly, the government shall document that the eligible infrastructure assets are being preserved approximately at (or above) a condition level established and disclosed by the government. The condition of the pavement subsystem is measured using the Rancho Santa Margarita Pavement Condition Index. The City Council accepted the findings of the Pavement Condition Assessment Update in Fiscal Year 2012 and adopted a condition rating of 70 as the minimum acceptable Pavement Condition Index (PCI) for the entire street pavement subsystem. The assessed PCI was an average of 79.2, or very good. This average PCI was maintained since the last update in 2010. Actual expenses for pavement condition maintenance were less than budgeted amounts due to conservative cost estimates.

### **Long-term Debt**

At the end of the current fiscal year, the City had total bonded debt outstanding of \$11.36 million.

## **Economic Factors and Next Year's Budgets and Rates**

The City of Rancho Santa Margarita's economy is clearly linked to the national and state economy. However, because the City is still maturing, its local economy can experience departures from other local, state or national trends with resultant recurring revenue fluctuations. Additionally, because the City's revenues are obtained from a limited number of sources, further revenue fluctuations may occur from year to year. The City uses the "Orange County Economic Forecast" prepared by Chapman University's Center for Economic Research as an information source for review of economic trends, in developing its budget model. Other data sources used by the City include UCLA Anderson School of Management and California State University Fullerton – Institute for Economic and Environmental Studies. Detailed information about the economic analysis, revenue assumptions, and other budgetary process parameters utilized in annual budget preparation, can be obtained from the City's 2012-2013 citywide budget, available through the City Manager's Office.

## **Requests for Information**

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Administrative Services, at the City of Rancho Santa Margarita, 22112 El Paseo, Rancho Santa Margarita, California, 92688.

## GOVERNMENT-WIDE FINANCIAL STATEMENTS

### THE STATEMENT OF NET ASSETS AND THE STATEMENT OF ACTIVITIES

The Statement of Net Assets and the Statement of Activities report information about the City as a whole and about its activities in a manner that considers longer-term resource needs and capacities' effects on the City's overall operations. These statements include *all* assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's *net assets* and changes in them. You can think of the City's net assets—the difference between assets and liabilities—as one way to measure the City's financial health, or *financial position*. Over time, *increases or decreases* in the City's net assets are one indicator of whether its long term *financial health and physical upkeep and renewal* is improving or deteriorating, and at what pace. You will need to consider other non-financial factors, however, such as changes in the City's property tax base and the condition of the City's roads, and other infrastructure, to assess the *overall health* of the City.

The Statement of Net Assets and the Statement of Activities present information about governmental activities. All of the City's basic services are considered to be governmental activities, including general government, building and planning, public safety, and public works.

## **GOVERNMENTAL FUNDS**

### **GENERAL FUND**

The General Fund has been classified as a major fund and is used to account for resources traditionally associated with government which are not required legally or by sound financial management to be accounted for in another fund.

### **CAPITAL PROJECTS FUND**

The Capital Projects fund has been classified as a major fund and is used to account for various street projects and infrastructure improvements as well as major facility construction and improvements.

### **NON-MAJOR FUNDS**

All other funds are combined into this category. Additional information about the individual funds can be found in the Supplementary Schedules Section of this document.

Net change in fund balances - total governmental funds \$ 1,154,447

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the costs of those assets is allocated over their estimated useful lives as depreciation expense.

Capital Expenditures	438,493
Depreciation of Capital Assets	(1,826,954)

Retirement of principal on long term debt, accrued interest payable, compensated absences, and OPEB obligation expenses reported in the Statement of Activities require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. The following represent the net change for the current period:

Retired Principal on long term debt (Certificate of Participation)	305,000
Accrued Interest Payable on long term debt (Certificate of Participation)	3,050
Compensated Absences	44,848
Net OPEB Obligation	(28,688)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the governmental funds. Conversely, collection of these revenues are reported in the governmental funds when received, but not in the Statement of Activities since they have been recognized previously.

# Notes To The Financial Statements

**City of Rancho Santa Margarita, California**

**CITY OF RANCHO SANTA MARGARITA  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

**NOTE 1 – REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES**

**(a) Reporting Entity**

The basic financial statements of the City have been prepared in conformity with generally accepted accounting principles as applicable to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The City of Rancho Santa Margarita (the City) was incorporated on January 1, 2000 under the General Laws of the State of California. The City operates under a Council-Manager form of government. The City provides all municipal services, including street maintenance, street sweeping, street lighting, traffic signal maintenance, animal control, engineering, public works, building and planning operations, and law enforcement. The fiscal year ending June 30, 2012 was the tenth year that the City paid the full cost for all these services.

Generally accepted accounting principles require that these financial statements represent the City of Rancho Santa Margarita and its component units, entities for which the City is considered to be financially accountable. These basic financial statements of the City of Rancho Santa Margarita include the financial activities of the City and the City of Rancho Santa Margarita Nonprofit Corporation. Separate financial statements are not issued for the Rancho Santa Margarita Nonprofit Corporation.

City of Rancho Santa Margarita Nonprofit Corporation (RSMNP) was formed on August 21, 2003 as a non-profit California corporation in order to facilitate the financing of the City Hall and Regional Community Center construction, and future financing and refinancing projects of the City. The RSMNP is a separate legal entity from the City and is governed by a five-member Board of Directors consisting of the City Council Members. The City has entered into non-cancelable long-term leases with RSMNP which provide for lease payments in amounts sufficient to meet the annual debt service requirements on the certificates of participation issued by RSMNP to finance the construction projects. The leases are financing arrangements which transfer ownership of the constructed assets to the City at the end of the lease term. The financial data of RSMNP has been blended into various City funds as applicable and the capitalized leases have been eliminated for financial reporting purposes.

NOTE 1 – REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (Continued)

Basis of Accounting and Measurement Focus

The *basic financial statements* of the City are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the basic financial statements

Government-wide Financial Statements

Government-wide financial statements display information about the reporting government as a whole. These statements include a separate column for the governmental activities of the primary government. Eliminations are required to be made in the Statement of Activities so that certain allocated expenses are recorded only once (by the function to which they were allocated). The City required no such eliminations.

In addition, general government expenses have not been allocated as indirect expenses to the various functions of the City.

Government-wide financial statements are presented using the *economic resources measurement focus* and the *accrual basis of accounting*. Under the economic resources measurement focus, all (both current and long-term) economic resources and obligations of the reporting government are reported in the government-wide financial statements. *Basis of accounting* refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Under the accrual basis of accounting, revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

See Independent Auditors' Report

**CITY OF RANCHO SANTA MARGARITA  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (CONTINUED)**

**NOTE 1 – REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES, (Continued)**

Program revenues include charges for services, special assessments, and payments made by parties outside of the reporting government's citizenry if that money is restricted to a particular program. Program revenues are netted with program expenses in the Statement of Activities to present the net cost of each program.

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as an expenditure. Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, rather than as an other financing source. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

**Fund Financial Statements**

The underlying accounting system of the City is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental funds are presented after the government-wide financial statements. These statements display information about major funds individually and non-major funds in the aggregate for governmental funds.

**Governmental Funds**

In the fund financial statements, governmental funds are presented using the *modified-accrual basis of accounting*. Their revenues are recognized when they become *measurable* and *available* as net current assets. *Measurable* means that the amounts can be estimated, or otherwise determined. *Available* means that the amounts were collected during the reporting period or soon enough thereafter to be available to finance the expenditures accrued for the reporting period. The City has elected an availability period of 60 days notwithstanding involuntary state imposed temporary deferrals of revenues collected and regularly scheduled to be transmitted to the City.

See Independent Auditors' Report

**CITY OF RANCHO SANTA MARGARITA  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (CONTINUED)**

**NOTE 1 – REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES, (Continued)**

Sales taxes, property taxes, franchise fees, gas taxes, motor vehicle in lieu, grants and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period to the extent normally collected within the availability period.

Revenue recognition is subject to the *measurable* and *available* criteria for the governmental funds in the fund financial statements. *Exchange transactions* are recognized as revenues in the period in which they are earned (i.e., the related goods or services are provided). *Locally imposed derived tax revenues* are recognized as revenues in the period in which the underlying exchange transaction upon which they are based takes place. *Imposed non-exchange transactions* are recognized as revenues in the period for which they were imposed. If the period of use is not specified, they are recognized as revenues when an enforceable legal claim to the revenues arises or when they are received, whichever occurs first. *Government-mandated and voluntary non-exchange transactions* are recognized as revenues when all applicable eligibility requirements have been met. Revenues, expenses, gains, losses, assets, and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33.

In the fund financial statements, governmental funds are presented using the *current financial resources measurement focus*. This means that only current assets and current liabilities are generally included on their balance sheets. The reported fund balance (net current assets) is considered to be a measure of “available spendable resources.” Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Non-current portions of long-term receivables due to governmental funds are reported on their balance sheets in spite of their spending measurement focus. Special reporting treatments are used to indicate; however, that they should not be considered “available spendable resources,” since they do not represent net current assets. Recognition of governmental fund-type revenue represented by non-current receivables is deferred until they become current receivables. Non-current portions of other long-term receivables, if any, that are offset by nonspendable fund balance.

See Independent Auditors' Report

**CITY OF RANCHO SANTA MARGARITA  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (CONTINUED)**

**NOTE 1 – REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES, (Continued)**

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as *expenditures* in the year that resources were expended, rather than as fund assets. The proceeds of long-term debt are recorded as *another financing source* rather than as a fund liability. Amounts paid to reduce long-term indebtedness are reported as fund expenditures.

When both restricted and unrestricted resources are combined in a fund, expenses are considered to be paid first from restricted resources, and then from unrestricted resources.

**(b) Major Funds**

The major funds are described as follows:

**General Fund**

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

**Capital Projects Fund**

The Capital Projects Fund has been classified as a major fund and is used to account for various street projects and infrastructure improvements as well as major facility construction and improvements.

**(c) Explanation of differences between governmental funds Balance Sheet and the  
government-wide Statement of Net Assets**

“Total fund balances” of the City’s governmental funds equal to \$20,389,065 differs from “net assets” of governmental activities of \$130,718,568 reported in the statement of net assets. This difference primarily results from the long-term economic focus of the Statement of Net Assets versus the current financial resources focus of the governmental fund Balance Sheets.

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (CONTINUED)**

**NOTE 1 – REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES, (Continued)**

**Capital Related Items**

When capital assets (property, plant, equipment) that are to be used in governmental activities are purchased or constructed, the cost of those assets are reported as expenditures in governmental funds. However, the Statement of Net Assets includes those capital assets among the assets of the City as a whole.

Cost of capital assets	\$177,173,990
Accumulated depreciation	<u>(55,697,122)</u>
Net capital assets	<u>\$121,476,868</u>

**Liabilities Transactions**

Payment liabilities applicable to the City's governmental activities not due and payable in the current period are not reported as fund liabilities. Payment liabilities (both current and long-term) are reported in the Statement of Net Assets. Balances at June 30, 2012 were:

Long-term debt	\$11,360,000
Interest payable	131,290
Compensated absences	234,225
Net OPEB Obligation	<u>91,730</u>
Net long-term liabilities	<u>\$11,817,245</u>

**Deferred Revenue**

Certain receivables will be collected after year-end, but are not available to pay for current-period expenditures, and therefore are offset by deferred revenue in the governmental funds.

Long-term debt	\$ 669,880
----------------	------------

**Reclassifications and Eliminations**

Interfund balances must generally be eliminated in the government-wide statements, except for net residual amounts due between governmental activities. Amounts involving fiduciary funds should be reported as external transactions. Any allocations must reduce the expenses of the function from which the expenses are being allocated, so that expenses are reported only once – in the function in which they are allocated.

**NOTE 1 – REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES, (Continued)**

(e) Explanation of differences between governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the government-wide Statement of Activities.

The “net change in fund balances” for governmental funds \$1,154,447 differs from the “change in net assets” for governmental activities \$760,076 reported in the statement of activities. The differences arise primarily from the long-term economic focus of the Statement of Activities versus the current financial resources focus of the governmental funds.

Capital Related Items

When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net assets decrease by the amount of depreciation expense charged for the year and loss on disposal of assets.

**Liabilities Transactions**

Some liabilities changes applicable to the City's governmental activities are not reported as fund liabilities. All liabilities balances (both current and long-term) are reported in the Statement of Net Assets. Differences at June 30, 2012 were:

Retired Principal on long-term debt (COP)	\$ 305,000
Accrued Interest on long-term debt (COP)	<u>3,050</u>
Liabilities changes	<u><u>\$ 308,050</u></u>

**Other Liabilities**

Long-term liabilities changes not due and payable in the current period are not reported in the governmental funds.

Compensated Absences	\$ 44,848

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the governmental funds. **(g) Cash and Investments**

Investments are reported in the accompanying Balance Sheet at fair value. Changes in fair value that occur during a fiscal year are recognized as *investment income* reported for that fiscal year. *Investment income* includes interest earnings and changes in fair value. The City pools cash and investments of all funds, except investments held by fiscal agent. Each fund's share in this pool is displayed in the accompanying financial statements as *cash and investments*.

Investment income earned by the pooled investments is allocated to the various funds based on each fund's average cash and investment balance.

**(h) Capital Assets**

Capital assets (including infrastructure) are recorded at cost where historical records are available and at an estimated original cost where no historical records exist. Contributed capital assets are valued at their estimated fair market value at the date of the contribution. Generally, capital asset purchases in excess of \$3,000 (including infrastructure) are capitalized if they have an expected useful life of three years or more.

Capital assets include public domain (infrastructure) capital assets consisting of certain improvements including roads, streets, curbs, gutters, sidewalks, street lights, signs and signals, medians, and storm drains.

Capital assets used in operations and infrastructure assets are depreciated over their estimated useful lives using the straight-line method in the government-wide financial statements. Depreciation is charged as an expense against operations and accumulated depreciation is reported on the respective balance sheet. The range of lives used for depreciation purposes for each capital asset class is as follows:

Equipment	3-10 years
Buildings	30 years
Infrastructure	25-65 years

The City of Rancho Santa Margarita met all the criteria required by GASB Statement No. 34 to report their pavement subsystem using the modified approach, which allows those infrastructure assets to be *non-depreciable*. Hence, all expenditures made for the pavement subsystem (except for additions and improvements) are expensed in the period incurred. Additions or improvements to the pavement subsystem that increase the capacity or efficiency of those assets (rather than preserve the useful life) are capitalized. The City elected to set their minimum acceptable level of condition at 70 for all pavement based on their pavement management system scale of 1 to 100. The City plans to test/assess the condition level every two years.

**(i) Property Taxes**

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on July 1 and are payable in two equal installments due November 1 and February 1, respectively, and are delinquent if not paid by December 10 and April 10, respectively. The County of Orange bills and collects the property taxes and remits them to the City in installments during the year. All material amounts associated with the reporting period are collected soon enough to be considered to be “available” to finance the expenditures of the reporting period.

The County of Orange is permitted by State Law (Proposition 13) to levy taxes at 1% of full market value (at time of purchase) and can increase the assessed values no more than 2% each year. The City receives a share of this basic levy proportionate to what was received in the 1976 to 1978 period.

**NOTE 1 – REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES, (Continued)**

**(j) Encumbrances**

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded, is employed in the governmental funds. Encumbrances at year end are reported as restricted, committed, or assigned fund balance depending on the resources that have been identified to fund the applicable encumbrance.

**(k) Interfund Transactions**

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either “due to/from other funds” (short-term interfund loans) or “advances to/from other funds” (long-term interfund loans).

The portion of fund balance associated with amounts that have been disbursed to other funds in the form of long-term interfund advances have been classified as nonspendable unless the funds associated with repayment of the advance are otherwise restricted for specific purposes.

**(l) Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that effect certain reported amounts and disclosures. Specifically, the City has made certain estimates and assumptions related to the collectability of its receivables, the depreciation of its capital assets and the ultimate outcome of claims and judgments. Actual results could differ from those estimates and assumptions.

**(m) Fund Equity**

Due to the implementation of GASB No. 54, the components of the fund balances of governmental funds now reflect the component classifications described below.

Fund balances are reported in the fund statements in the following classifications:

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (CONTINUED)**

NOTE 1 – REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (Continued)

**Nonspendable Fund Balance**

Nonspendable Fund Balance – this includes amounts that cannot be spent because they are either not spendable in form (such as inventory) or legally or contractually required to be maintained intact (such as endowments).

**Spendable Fund Balance**

Restricted Fund Balance – this includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through enabling legislation. If the Council action limiting the use of funds is included in the same action (legislation) that created (enables) the funding source, then it is restricted.

Committed Fund Balance – this includes amount that can be used only for the specific purposes determined by a formal action of the Council. It includes Legislation (Council action) that can only be overturned by new legislation requiring the same type of voting consensus that created the original action. Therefore, if the Council action limiting the use of the funds is separate from the action (legislation) that created (enables) the funding source, then it is committed, not restricted. The City considers a resolution, an ordinance, or a minutes action to constitute a formal action of City Council for the purposes of establishing committed fund balance.

Assigned Fund Balance – this includes amounts that are designated or expressed by the Council, but does not require a formal action like a resolution or ordinance. The Council may delegate the ability of an employee or committee to assign uses of specific funds, for specific purposes. Such delegation of authority has been granted to the City Manager by the City Council.

Unassigned Fund Balance – this includes the remaining spendable amounts which are not included in one of the other classifications.

It is the city's policy, adopted by the City Council, that restricted resources will be applied first, followed by (in order of application) committed, assigned, and unassigned resources.

**Disclosures Relating to Interest Rate Risk**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The City currently manages its exposure to interest rate risk by participating in short term investments such as the Local Agency Investment Fund (LAIF), which invests in a combination of investments with a relatively short term weighted average maturity and offers same day liquidity.

Information about the sensitivity of the fair values of the City's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the City's investment policy, or debt agreements, and the actual rating, as reported by Standard and Poor's, as of year-end for each investment type.

Investment Type	Total Amount	Minimum		Rating as of Fiscal Year End

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investment securities* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments securities, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool that must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a market value of at least 150% of the secured public deposits, and letters of credit drawn on the Federal Home Loan Bank may have a minimum market value of 105% of the secured public deposits. At June 30, 2012, the City deposits (bank balances) were either insured by the Federal Deposit Insurance Corporation or collateralized in accordance with the California Government Code.

**Investment in State Investment Pool**

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the City's investment in this pool is reported in the accompanying financial statements at amounts based upon the City's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. LAIF is not rated.

**NOTE 3 – TRANSFERS IN AND OUT**

Transfers in and out for the year ended June 30, 2012 are as follows:

	<b>Transfers From:</b>			
	<b>General Fund</b>	<b>Capital Projects Fund</b>	<b>Non-major Funds</b>	<b>Total</b>
<b>Transfers To:</b>				
General Fund	\$ -	\$ -	\$ 719,211	\$ 719,211
Capital Projects	-	-	1,062,254	1,062,254

Total Transfers	<u><u>\$ 827,587</u></u>	<u><u>\$ 21,441</u></u>	<u><u>\$ 1,781,465</u></u>	<u><u>\$ 2,630,493</u></u>

The reasons for the significant transfers between funds are as follows:

- The transfer of \$719,211 from the Non-major Funds to the General Fund was to fund street maintenance costs and traffic engineering services—both recorded in the General Fund.
- The transfer of \$1,062,254 from the Non-major Funds to the Capital Project Fund was primarily to fund the various slurry seal and overlay road projects throughout the city (\$753,072), and traffic signal synchronization projects (\$205,568).
- The transfer of \$21,441 from Capital Projects Fund to the Non-major Funds was reimbursement for capital project expenses subsequently covered by grant funds.
- The transfer of \$827,587 from the General Fund to the Non-major Funds was transferred to the RSM Non-Profit Debt Service Fund to pay principal and interest on the Certificates of Participation.

NOTE 5 – LONG-TERM LIABILITIES, (Continued)

City of Rancho Santa Margarita Nonprofit Corporation Certificates of Participation (COP)  
Payable

On November 1, 2003, the City of Rancho Santa Margarita Nonprofit Corporation issued \$12,795,000 of Certificates of Participation. These Certificates of Participation were issued to finance a portion of the costs of the acquisition, construction and installation of a City Hall and a Regional Community Center, which is leased to the City. Term certificates are due as follows: \$1,730,000 on October 1, 2027, with an interest rate of 4.75%; \$1,995,000 on October 1, 2030, with an interest rate of 4.75%; and \$2,300,000 on October 1, 2033, with an interest rate of 5.00%. Serial certificates are due in annual installments ranging from \$265,000 to \$805,000 commencing on October 1, 2007. The serial certificates bear interest ranging from 3.25% to 4.75%, payable semi-annually on April 1 and October 1 of each year. Interest component payments were capitalized through April 1, 2005. The amount outstanding as of June 30, 2012 was \$11,360,000.

The COPs are subject to federal arbitrage regulations. In October 2008 an interim arbitrage rebate analysis was performed to determine whether the City was required to remit an arbitrage rebate payment to the United States Department of the Treasury for excess arbitrage liabilities for the previous five year period. The computational analysis showed no payment was due or required by the City, nor was the City required to file form 8038-T with the Internal Revenue Service. The next rebate installment payment computational analysis will be due not later than November 30, 2013.

The annual requirements to amortize the outstanding Certificates of Participation as of June 30, 2012, are as follows:

<u>Fiscal Year</u>	<u>Principle</u>	<u>Interest</u>
2013	\$ 315,000	\$ 518,860
2014	330,000	505,960

**NOTE 6 – PENSION PLAN**

**CalPERS Defined Benefit Pension Plan for Miscellaneous Employees**

**Plan Description** The City's employees are eligible to participate in the California Public Employees Retirement System (CalPERS), a cost sharing multiple-employer defined benefit pension plan. Initial participation was determined August 2006, at which time eligible employees conducted an election voting to withdraw from the Orange County Employees Retirement System (OCERS) and participate in the CalPERS Defined Benefit Pension Plan for Miscellaneous Employees. New employees are required to join CalPERS.

CalPERS provides retirement and disability benefits, annual cost-of living adjustments, and death benefits to plan members and beneficiaries. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by State statute and City ordinance. The City has authority for establishing and amending plan benefits. Copies of CalPERS' annual financial report may be obtained from its executive office: 400 "P" Street, Sacramento, California 95814.

**Funding Policy** Plan participants (members) for Tier 1 (2.5% @ 55 formula) are required to contribute 8% of their annual covered salary. The City makes the contributions required of City employees on their behalf and for their account. Plan participants for Tier 2 (2% @ 60 formula) are required to contribute 7% of their annual covered salary. The City is also required to contribute additional amounts at an actuarially determined rate. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The contribution requirements of plan members and the City are established and may be amended by CalPERS. The City has authority for establishing and amending the funding policy.

**Contributions** For each of the fiscal years shown below, the City has contributed at the actuarially determined rate provided by PERS' actuaries. Under GASB 27, as amended by GASB 50, an employer reports an annual pension cost (APC) equal to the annual required contribution (ARC) plus an adjustment for the cumulative difference between the APC and the employer's actual plan contributions for the year. The cumulative difference is called the net pension obligation (NPO). The ARC for the period July 1, 2011 to June 30, 2012 has been determined by an actuarial valuation of the plan as of June 30, 2009. The City's covered payroll for PERS was \$1,607,088 for the year ended June 30, 2012, while the City's total payroll for all employees was \$1,894,917 during the same period. In order to calculate the dollar value of the ARC for inclusion in financial statements prepared as of June 30, 2012, the contribution rate is multiplied by the payroll of covered employees who were actually paid during the period from July 1, 2011 to June

**NOTE 7 – OTHER POST-EMPLOYMENT BENEFITS (OPEB)**

**Plan Description** The City provides a single-employer defined benefit plan as part of the City's participation in an elective group medical insurance plan for current employees administered by CalPERS. The CalPERS medical insurance plan offers a comprehensive program of individual and family HMO and PPO coverages, and has typical deductible and co-pay requirements. The City's contractual agreement with CalPERS to participate in the plan and offer health insurance benefits to employees, their partners and/or relatives stipulates that the City must pay a minimum monthly amount as a premium subsidy benefit; for all employees who retire from City service, continue medical coverage and pay additional amounts to retain coverage and meet other eligibility parameters.

**Eligibility** Employees are eligible to receive the minimum medical premium subsidy benefit amount provided by the plan if they: 1) Satisfy eligibility requirements for vesting of benefits required by CalPERS; 2) Retire from employment with the City; 3) Elect to continue medical insurance coverage through the CalPERS plan; and 4) Pay all additional premium amounts required for the coverage option selected by them to continue in the group medical insurance plan upon retirement from the City, but must pay all premiums required to retain coverage. To receive the City's medical premium subsidy benefit,

retirees must also be vested members of the CalPERS retirement system; i.e., retire on or after age 50 with 5 years of CalPERS retirement membership contributions. If the retiree discontinues coverage in the CalPERS health insurance plan, the City's obligation to pay a premium subsidy benefit ends. Retirees may continue in the CalPERS plan for the remainder of their lives. The City is not obligated under the group medical insurance plan to pay premiums for any retirees or provide post-retirement medical or health insurance benefits for retirees, or their spouses, partners, or relatives; other than the required minimum benefit payment. Eligibility for the City plan consisted of the following at June 30, 2012:

Eligible retirees from City service	4
Active employees, both enrolled and un-enrolled in the City's CalPERS health insurance plan	<u>18</u>
Total	<u>22</u>

**City's Funding Policy** The City pays only the minimum required monthly premium subsidy benefit amount for retired City employees; an amount that can be amended by City Council action. The required premium is made (paid) monthly directly to CalPERS at the current-fiscal-year rate set by CalPERS, which is adjusted annually based on the medical cost component of the consumer price index. For Fiscal Year 2011-12, the City paid \$112 per month as the full amount required by the plan for each retiree from City service, for a total of \$4,520.

**Annual OPEB Cost and Net OPEB Obligation** The City's measurement and disclosure of retiree healthcare liabilities is made pursuant to Government Accounting Standards Board (GASB) Statement No. 45, which became effective for the City in the Fiscal Year ended June 30, 2011. According to this statement, an alternative measurement method that differs from a full actuarial valuation is permitted for employers with fewer than one hundred plan members. Employers who qualify for and use the alternative measurement method should perform new calculations every three years.

The City qualifies to use, and elects to use the alternative measurement method, which allows simplification of certain actuarial assumptions, as a valid means of measuring past, present and future City OPEB costs. The total of all such costs as they are incurred in the future is expressed in current dollars as the present value of those costs. The actuarial accrued liability (AAL) is the present value of benefit costs attributed to past service only. The City has not established a trust that is administered by the City for the purpose of holding assets accumulated for plan payment obligations for current or future retirees. Because the City does not have an irrevocable trust for the pre-funding of those

benefit costs as they become realized in the future, the City has an equal *unfunded* accrued liability (UAL). The service cost is the proportion of the present value of future benefit costs allocated to the current period (fiscal year) by the actuarial method used in the valuation.

The actuarial cost method used in the City's current valuation, dated July 1, 2009, is the projected unit credit (PUC) method; one of six permitted by GASB No. 45, under which the present value of costs is apportioned into AAL and service cost. The annual required contribution (ARC) is an amount equal to the combination of service cost for the current fiscal year and amortization, or allocation of a portion of the unfunded liability to the current fiscal year. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover service costs each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years based on an open group.

The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation for these benefits:

Present value of all projected benefits	\$437,475
Actuarial accrued liability (AAL) using PUC	\$141,927
Service cost – at 6/30/2012	\$ 24,924
30 year amortization of UAL	<u>9,233</u>
Annual required contribution	\$ 34,157
Interest on net OPEB obligation	3,152
Adjustments to annual required contributions	<u>(4,101)</u>
Annual OPEB cost (expense)	\$ 33,208
Contributions made	<u>(4,520)</u>
Increase in net OPEB obligation	\$ 28,688
Net OPEB obligation-beginning of year	<u>\$ 63,042</u>
Net OPEB obligation-end of year	<u>\$ 91,730</u>

**NOTE 7 – OTHER POST-EMPLOYMENT BENEFITS (OPEB), (Continued)**

The three-year trend information of GASB No. 45, the City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the fiscal year ended June 30, 2012 were as follows:

Fiscal Year	Annual OPEB Cost	Actual Contribution	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
		Net of Adjustments	Contributed	Obligation
6/30/2010	\$ 34,157	\$ 2,068	6.05%	\$ 32,089
6/30/2011	\$ 34,157	\$ 3,204	9.38%	\$ 63,042
6/30/2012	\$ 34,157	\$ 4,520	13.23%	\$ 91,930

**Funded Status and Funding Progress** The funded status of the plan as of July 1, 2009, was as follows:

Actuarial accrued liability (AAL)	\$141,927
Actuarial value of plan assets	<u>0</u>
Unfunded actuarial accrued liability (UAAL)	<u>\$141,927</u>
Funded ratio (actuarial value of plan assets/AAL)	0.0%
Covered payroll (active plan members)	\$1,607,088
UAAL as a percentage of covered payroll	8.83%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for the benefits.

**Actuarial Methods and Assumptions** Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each

valuation and the historical pattern of sharing of benefit costs between employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial assets, consistent with the long-term perspective of the calculations.

The actuarial cost method used for determining the benefit obligations is the Projected Unit Credit Actuarial Cost Method. For the actuarial valuation date of 7/1/2009, the actuarial assumptions included an annual healthcare cost trend rate of 7 percent initially, reduced by decrements of 1 percent per year to an ultimate rate of 5 percent after the third year. The annual inflation rate assumed 4 percent increases in medical costs. The UAAL is being amortized as a level dollar of projected payroll over an open 30 year period. It is assumed the City's payroll will increase 5 percent per year.

**NOTE 8 – RISK MANAGEMENT**

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters.

**General Liability**

The City purchases general liability insurance from Public Agency Risk Sharing Authority of California (PARSAC). There is a self-insured retention of \$10,000 per claim. PARSAC provides limits to \$1,000,000. Excess coverage is provided through a combination of pooling and reinsurance for total coverage limits of \$34 million. The total premium for this coverage was \$104,053 for the fiscal year ending June 30, 2012.

**Workers' Compensation**

Effective March 1, 2004, the City purchases Workers' Compensation insurance from PARSAC. There is no deductible and the policy provides statutory limits. The premium for this coverage was \$59,433 for the fiscal year ending June 30, 2012.

**Property Insurance**

The City purchases commercial property insurance from PARSAC with program limits of \$1 billion for personal property with \$5,000 deductible per occurrence.

See Independent Auditors' Report

NOTE 8 – RISK MANAGEMENT, (Continued)

Fidelity Bonds

The City purchases bond coverage through PARSAC in the amount of \$1,000,000 with a \$2,500 deductible.

Insurance premium payments to PARSAC are made from the City's General Fund. There were no significant claims or claims payments during the fiscal year, and there were no significant outstanding claims at June 30, 2012. Furthermore, there have been no claims settlements or judgments that have exceeded insurance coverage since the City's inception on January 1, 2000.

NOTE 9 – CONTINGENT LIABILITIES

Grants, awards and allocations of revenues for restricted purposes that have been received or are receivable from other agencies are subject to audit and adjustment by those grantor agencies. Any ineligible or disallowed expenditures of those funds, including amounts already collected, may constitute a liability of the City to return applicable funds, or request an extension of time to perform in compliance of specific requirements. The amount, if any, of such disallowed funds usage claims made by other agencies cannot be determined at this time. However, the City's management does not expect such amounts, if any, to materially impact the City's General Fund balance reserves.

The City of Rancho Santa Margarita is defendant and plaintiff in pending lawsuits arising out of matters incidental to the operation of the City. Although the outcome of these lawsuits cannot be determined at present, management estimates that any potential judgments against the City not covered by insurance resulting from such litigation will not materially affect the City's financial condition.

The City has a mitigation commitment with the County of Orange to make minimum payments each year, plus interest, to mitigate the effect of the reduction of excess revenues over expenditures for future fiscal years as a result of the incorporation of the City of Rancho Santa Margarita. The total commitment of \$12 million was negotiated for payment in two distinct methodologies. The first methodology comprised a series of annual \$1.1 million payments for 6 years with a \$600,000 final payment, for a total of \$7.2 million. This portion of the commitment payments was completed in Fiscal Year 2007. The remaining annual payments associated with the commitment are contingent upon future receipt of sales tax revenues by the City in a respective fiscal year prorated in excess of a indexed base amount for that year. Those payments have not occurred since

2009 due to sales tax revenue declines, but are open ended until the remaining balance of \$1,900,535 is repaid.

**NOTE 10 – UNEARNED REVENUE**

For the governmental funds, revenues are recognized for monies received when the related expenditures are measurable or incurred or eligibility requirements are satisfied. Deferred revenue reported in the General Fund represents advancements that have not been earned under the measurability criteria of GASB 34. The City has reported the same amount as “unearned revenue” on the government wide financial statements. For the Fiscal Year ended June 30, 2012, in the General Fund, \$786,261 was deferred, primarily consisting of \$669,880 of prior year capital project costs not received by year end. Additional amount of \$82,553 is revenue received in advance of planned Community Services programs or events.

Deferred revenue at July 1, 2011 included a balance of \$483,048 related to cable TV franchise agreement. A lump sum amount of \$805,080 was received in 2005 and was being amortized over fifteen years. On November 15, 2011, the City’s cable TV franchisee Cox Communications notified the City of its intention to opt into the State TV franchise, thereby pre-empting the City’s franchise agreement with Cox. The remaining balance of \$483,048 was recognized as revenue in Fiscal Year ended June 30, 2012.

**NOTE 11 – GENERAL FUND BALANCE CLASSIFICATIONS**

A continuing priority of the City Council is to exercise prudent financial management, provide long term financial planning, and strong internal control of City asset uses. To this end the Reserve Policy was adopted on June 25, 2008 regarding the City’s accumulated net resources, called fund balance. The Reserve Policy establishes a framework for the funding, use, and maintenance of available fund balance levels for various objectives: To protect the City’s ability to provide services to community residents during emergencies or economic downturns; provide funding for unanticipated or “one-time” expenditures, plan for the repair/replacement of City facilities, infrastructure or technology; and provide an amount for use in times of catastrophic emergencies or natural disasters.

**NOTE 11 – GENERAL FUND BALANCE CLASSIFICATIONS, (Continued)**

The City's fund balance classifications at June 30, 2012, are presented below and followed by explanations as to the nature and purpose of each classification.

**General Fund:**

**Assigned:**

Council Strategic	\$ 2,183,413
Technology	1,290,920
Facilities	2,958,949
Vehicles	304,216
Infrastructure	<u>1,139,659</u>
Total Assigned: Council projects/equipment/facilities	<u>\$ 7,877,157</u>
<b>Unassigned:</b>	
Emergency Policy	<u>7,618,809</u>
Total Unassigned: Emergency Policy	<u>\$ 7,618,809</u>

**Assigned for Council Strategic** – An amount established for special projects and services to be used at the City Council's discretion. The Council may authorize expenditure at any time during the fiscal year, up to 75% of the funding target; however, it shall require a majority vote (3/5) of City Council to access these funds.

**Assigned for Technology** – To be used for replacement and enhancement of technology, and shall require a majority vote (3/5) of the City Council to access these funds.

Technology is defined as computers (CPUs, servers, etc.), software, Council Chambers media, etc.

**Assigned for Facilities** – To be used for repair, replacement, or improvement of City facilities such as the City's Civic Center, and other acquired facilities and mechanical systems, and shall require a majority vote (3/5) of City Council to access these funds.

**Assigned for Vehicles** – To be used for replacement of City vehicles and other equipment defined as rolling stock, and shall require a majority vote (3/5) of the City Council to access these funds.

**Assigned for Infrastructure** – To be used for repair, replacement or improvement of City property, including roads, bridges, sidewalk, and medians and shall require a majority vote (3/5) of the City Council to access these funds. The reserve amount is linked to the current City 7 year CIP plan.

**NOTE 11 – GENERAL FUND BALANCE CLASSIFICATIONS, (Continued)**

Emergency Policy – Unassigned to be used for resumption of City services, during a natural or man-made disaster, which shall require a super majority vote (4/5) of the City Council to access these funds during non-emergencies, and majority vote (3/5) of the City Council to access these funds during emergencies.

Under GASB 54 provisions, unless earmarked for specific identifiable improvements or projects, emergency funds may not be classified as committed or assigned; and are therefore included in the unassigned classification.

**NOTE 12 – COMMITMENTS**

As of June 30, 2012, City commitments for outstanding encumbrances (purchase orders and contracts for goods and services not yet delivered) and self insurance for the General Fund are as follows:

General Fund:	Committed for street maintenance	\$ 142,428
	Committed for self insurance	<u>30,000</u>
		<u>\$ 172,428</u>

**NOTE 13 – OPERATING LEASE**

The City entered into a non-cancelable operating lease agreement with Wells Fargo Financial Leasing, Inc. in January 2008 for copy equipment at City Hall at a cost of \$139,920. The monthly cost of the 5 year lease agreement is \$2,332 and is funded by the General Fund. Future minimum payments relating to the lease are as follows:

<u>Year Ending June 30,</u>	<u>Annual Rent</u>
2013	<u>13,992</u>
	<u>\$ 13,992</u>

**NOTE 13 – OPERATING LEASE, (Continued)**

The City entered into another non-cancelable operating lease agreement with Wells Fargo Financial Leasing, Inc. in October 2008 for BTRCC copy equipment at a cost of \$14,204. The monthly cost of \$268 is for a 53 month term and is funded by the General Fund. Future minimum payments relating to the lease are as follow:

<u>Year Ending June 30,</u>	<u>Annual Rent</u>
2013	<u>2,144</u>
\$	<u>2,144</u>

**NOTE 14 – LITIGATION SETTLEMENT**

A Corrected Final Judgment was entered June 23, 2010 in San Diego County Superior Court and recorded in Orange County, California on August 18, 2010 relative to on-going litigation of the City. On January 28, 2009, the City Council approved a Settlement Agreement with the County of Orange, the Endangered Habitats League, and Rancho Mission Viejo, ending litigation initiated in 2005 by the City over the ownership of 502 acres of land in and around the City. In mid-2002, the City became aware that not all of the properties that should have been transferred from the County upon the City's incorporation had actually been transferred. While there was agreement as to many of the property interests, the City and County differed in their views as to who should have ownership of 502 acres that had originally been dedicated to the County, prior to the City's incorporation, for open space, recreation and transportation purposes.

When the parties were not able to resolve their differences, the City filed a lawsuit in 2005, claiming ownership to the entire 502-acre parcel. While the lawsuit was moving forward, the County, the Fish and Wildlife Service, the Santa Margarita Water District and Rancho Mission Viejo, LLC entered into an Implementation Agreement regarding the Southern Sub-region HCP Habitat Reserve. The effect of this was to designate specific natural habitat that would be protected in perpetuity and there would be certainty as to the Habitat Reserve.

After more than a year of negotiations, the parties negotiated a settlement agreement which, in addition to finalizing the transfer of property easements that belonged to the City upon incorporation, such as open space and public access easements, included the following key terms. The specific transactions and related items were completed at the times noted and with particular actions as noted.

The City received title to the 92-acre Chiquita Ridge open space parcel from the County of Orange. The City valued that land at \$50,000 per acre, for a total of \$4,600,000, based

on recent local and regional comparable sales and appraisals. The 92-acres are not encumbered by the Habitat Reserve designation. While there are no plans for development, the agreement provides that at such time that there is development; there shall be a minimum 23-acre active sports park that will benefit the residents of the City of Rancho Santa Margarita as well as the nearby residents of the unincorporated County area. Development of the 92-acre parcel is limited to 55 acres and any of the remaining 37 acres which are disturbed during construction must be restored to natural habitat conditions.

In addition to any portion of the 37 acres which are restored, the City shall enhance and restore 80 acres of habitat to increase the environmental value of the habitat. The 80 acres will be in or close to the City and will provide a benefit to the City's residents. The County received title to the remaining 410 acres that were in dispute thereby protecting that property as natural habitat and ensuring its enrollment in the Habitat Reserve. The City is required by the Settlement Agreement to prepare a restoration plan by the end of the third year after the Chiquita Ridge parcel conveyance, and begin restoration efforts by the end of the fourth year after conveyance. A consultant has been retained to prepare a restoration plan, and City staff will negotiate with third parties, including the County and resource agencies, to determine acceptable sites and restoration programs. As of June 30, 2012 the cost and timeframe of the required restoration efforts was not reasonably determinable and therefore no estimate of those costs is disclosed here or included in the City's financial statements. Expenditures will be recorded in the City's financial statements as costs are incurred for restoration efforts in future fiscal years.

In a related transaction required in the agreement, the City transferred to the County the 15.1 acre "Wynne Parcel" it purchased for \$2,566,351 in Fiscal Year 2009, following approval of the Settlement Agreement. The County will enroll the parcel in the Habitat Preserve. This parcel is a critical link in the regional wildlife corridor and contains valuable vernal pools and protected species including the fairy shrimp. The County will also enroll approximately 100 acres of Dove Canyon Open Space into the Habitat Reserve.

condition of its CFD 86-2 and CFD 86-1 and notified the City of the availability of CFD funds for reimbursement to the City for public traffic signal and bridge safety and lighting improvements that were constructed using City funding sources after incorporation. The City submitted six separate reimbursement requests totaling \$669,880. On August 21, 2012, the Board of Supervisors approved payment of CFD revenue in the amount of \$669,880 to be paid to the City for reimbursement of costs related to the construction of certain street, traffic signal, and bridge improvements. The recognition of the revenue is included in the government-wide statements and according to GFOA availability guidelines is recorded in the fund financials as deferred revenue at June 30, 2012.

**CITY OF RANCHO SANTA MARGARITA**  
**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**  
**FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

**NOTE 1 – CAPITAL ASSETS – MODIFIED APPROACH FOR INFRASTRUCTURE**

The City has elected to use the *modified approach* for the accounting and financial reporting of infrastructure assets contained in the Streets and Roads network Street Pavement subsystem.

Under the modified approach, for financial reporting purposes, infrastructure assets that are part of a network or a subsystem of a network are not required to be depreciated as long as two requirements are met. The first requirement is to manage the eligible infrastructure assets using an asset management system that has the following characteristics:

- An up-to-date inventory of eligible infrastructure assets
- Condition assessments of the eligible infrastructure assets performed at least every three years, with summarized results using a measurement scale
- Annual estimates of the amount necessary to maintain and preserve the eligible infrastructure assets at the condition level established and disclosed by the government.

The second requirement is to document that the eligible infrastructure assets are being preserved approximately at (or above) a condition level established and disclosed by the government. A condition assessment must be performed every three years for financial reporting purposes. If eligible infrastructure assets meet all requirements and are not depreciated, all expenditures made for those assets (except for additions and improvements) are expensed in the period incurred. Additions and improvements to eligible infrastructure assets are capitalized. Additions or improvements increase the capacity or efficiency of infrastructure assets rather than preserve the useful life of the assets.

The condition of the pavement subsystem is measured using the Rancho Santa Margarita Pavement Condition Index. In order to establish and maintain eligibility for Measure M transportation funding provided by Orange County, California, the City must adopt and fund a local Pavement Management Plan (PMP). The local PMP is required to be updated every 2 years to maintain Measure M eligibility. The City Council accepted the findings of the PMP update performed in Fiscal Year 2012 and adopted a condition rating of 70 as the minimum acceptable Pavement Condition Index (PCI) for the entire street pavement subsystem. In accordance with the requirements for using the modified approach for this subsystem, these findings will be used until the next PCI assessment is performed for financial reporting purposes within three years of this assessment. The results of the most recent condition assessments were as follows:

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**  
**FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (CONTINUED)**

NOTE 1 – CAPITAL ASSETS – MODIFIED APPROACH FOR INFRASTRUCTURE,  
(Continued)

**Assessments performed in the fiscal years ended June 30:**

	<u>Actual Assessed Condition Level</u>	<u>Minimum Condition Level</u>
<b>2012:</b> Pavement subsystem	79.2	70
<b>2010:</b> Pavement subsystem	78.5	70
<b>2008:</b> Pavement subsystem	76.5	70
<b>2007:</b> Pavement subsystem	73.9	70
<b>2004:</b> Pavement subsystem	75.1	70

The pavement subsystem was assigned a numerical value based upon the scales as identified below. Each street segment has a total possible point value of 100. Once each segment had a total score, the City determined the condition of the street by segment, subdivision and as a whole based upon the street deficiency scale identified below.

- Excellent (85-100) – Minor to low distress, no significant distress.
- Very Good (70-84) – Little distress, with the exception of utility patches in good condition, or slight hairline cracks; may be slightly weathered.
- Good (55-69) – Slight to moderately weathered, slight distress, possible patching.
- Fair (40-54) – Severely weathered or slight to moderate levels of distress, generally limited to patches and non-load related cracking.
- Poor (25-39) – Moderate to severe distresses, including load-related types, such as alligator cracking.
- Very Poor (10-24) – Severely distressed, large quantities of distortion or alligator cracking.
- Failed (0-9) – Failure of the pavement, distress has surpassed tolerable rehabilitation limits.

Based on the pavement condition assessment update performed in FY 2012, as of June 30, 2012, the streets had an average deficiency rating or Pavement Condition Index (PCI) of 79.2, or Very Good.

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**  
**FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (CONTINUED)**

**NOTE 1 – CAPITAL ASSETS – MODIFIED APPROACH FOR INFRASTRUCTURE,  
(Continued)**

During the fiscal year ending June 30, 2012, street maintenance costs were \$1,743,138 compared to the budgeted estimate of \$2,096,757. Street maintenance costs for the fiscal years ending June 30, 2011 June 30, 2010, June 30, 2009, June 30, 2008, June 30, 2007, June 30, 2006, June 30, 2005, June 30, 2004 and June 30, 2003 (the first year of implementation of the modified approach for street pavement) were \$2,857,557, \$1,210,581, \$1,042,169, \$2,132,675, \$3,812,219, \$1,818,402, \$919,528, \$783,609 and \$908,403, respectively. Budgeted street maintenance costs for the years ended June 30, 2011, June 30, 2010, June 30, 2009, June 30, 2008, June 30, 2007, June 30, 2006, June 30, 2005, June 30 2004 and June 30, 2003 were \$3,171,799, \$3,056,000, \$1,808,700, \$3,277,392, \$5,091,446, \$2,246,154, \$1,160,000, \$943,000 and \$1,200,000. Appropriations totaling \$2,608,357 have been budgeted for the fiscal year ending June 30, 2013 for maintenance/rehabilitation to maintain the minimum PCI standard.

**NOTE 2 – BUDGETS AND BUDGETARY ACCOUNTING**

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In June, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Budget development discussions are conducted at public workshops, and City Council study sessions and regular meetings, to obtain resident and business comments.
3. Prior to July 1, the budget is adopted by Council action at a public hearing.

Formal budgetary integration is employed as a management control device during the year. After adoption, the City Manager is authorized to transfer appropriated funds between major expenditure categories within departments and between departments. However, any revisions that alter the total appropriations of any fund must be approved by the City Council. Expenditures may not legally exceed appropriations at the fund level. All appropriations lapse at the end of the fiscal year, except for capital projects. For any project which is under construction at year-end, the appropriations are allowed to carry forward with the amount being adopted for the current year budget.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION  
FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (CONTINUED)**

**NOTE 2 – BUDGETS AND BUDGETARY ACCOUNTING, (Continued)**

Budgets are prepared in accordance with generally accepted accounting principles using the modified-accrual basis of accounting. Accordingly, actual revenue and expenditure amounts can be compared with related budget amounts without any significant reconciling items.

Certain City financial statements and schedules present comparisons of budgeted amounts to actual results for all governmental funds with annual budgets. Budgeted revenue amounts represent the original budget modified by Council-authorized adjustments during the year, contingent upon new or additional revenue sources. Budgeted expenditure amounts represent original appropriations adjusted for supplemental appropriations during the year. Budgetary comparisons in the financial statements and schedules are based on the final adjusted amounts.

For financial reporting purposes, City Council, City Manager, and Administrative Services departments are combined as General Government, but operate separately for budgetary control purposes in the General Fund. All other budgeted funds are considered single operating units for budgetary control and financial reporting purposes.

# Supplementary Schedules

**City of Rancho Santa Margarita, California**

## **NON-MAJOR GOVERNMENTAL FUNDS**

### **Special Revenue Funds**

Special Revenue Funds are used to account for activities funded by dedicated or specific program revenues. The following Special Revenue Funds have been classified as non-major funds in the accompanying financial statements:

Gas Tax – This fund is used to account for the City's share of the motor vehicle gas tax imposed under the provisions of the Street and Highway Code of the State of California under Sections 2105, 2106, 2107, 2107.5 and 2103 which are legally restricted for the acquisition, construction, improvement and maintenance of public streets.

Measure M – This fund is used to account for the City's share of the sales tax increase authorized by Orange County's Measure "M", and renewed Measure M. The monies are legally restricted for the acquisition, construction and improvement of public streets.

Air Quality Management District – This fund is used to account for the City's share of vehicle registration fees that the State of California has allocated to address air quality concerns in Southern California. These monies are to be used in air quality maintenance programs locally and/or regionally.

California Law Enforcement Equipment Program – This fund is used to account for monies received through the CLEEP grant. These monies are used by police services for the purchase of high-technology police equipment.

Traffic Congestion – This fund is used to account for revenue from Assembly Bill 2928 and the corresponding expenditures for street infrastructure.

Supplemental Law Enforcement Services – This fund is used to account for monies received through the SLESF grant. These monies are used by police services to support front line law enforcement.

### **Debt Service Fund**

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, the City long-term debt principal and interest.

City of Rancho Santa Margarita Non-Profit Debt Service – This fund is used to account for the payment of interest and principal of the City of Rancho Santa Margarita Non-Profit Corporation project financing activities for construction of the City's civic center facilities.

**Notes:**

<sup>1</sup>In 1978, California voters passed Proposition 13 which set the property tax rate at a 1.00% fixed amount. This 1.00 % is shared by all taxing agencies in which the subject property resides within. In addition to the 1.00% fixed amount, property owners are charged taxes as a % of assessed property values for the payment of any voter approved bonds.

<sup>2</sup>Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all city property owners.

<sup>3</sup>City's Share of 1% Levy is based on the share of the general fund tax rate area with the largest net taxable value within the city. ERAF general fund tax shifts may not be included in tax ratio figures.

<sup>4</sup>Total Direct Rate is the weighted average of all individual direct rates applied by the City.

<sup>5</sup>Under Article IXXXA of the California Constitution, local agencies within the State of California can only levy a tax rate for general obligation bonds. In addition, Article XIII A of the California Constitution specifies that the counties within the State of California may levy a basic tax rate, distributing the proceeds to the proper agencies.

<sup>6</sup>This tax rate does not include any Mello-Roos tax or special assessments.

**Note:**

The Government Code of the State of California provides for a legal debt limit of 15% of gross assessed valuation. However, this provision was enacted when assessed valuation was based upon 25% of market value. Effective with the 1981-82 fiscal year, each parcel is now assessed at 100% of market value (as of the most recent change in ownership for that parcel). The computations shown above reflect a conversion of assessed valuation data for each fiscal year from the current full valuation perspective to the 25% level that was in effect at the time that the legal debt margin was enacted by the State of California for local governments located within the state.
