

SAVINGS

Recycling is not only good for the environment, it can be great for your bottom line too! By exchanging a trash container with a recycle container, your monthly bill may be significantly reduced. Let us show you how to better manage your waste stream and put money back in your property and not in your trash container.

GETTING STARTED

CR&R will work with your property to determine the types of materials you generate and structure a program using the space you have available in and around your office for collection.

CUSTOMIZED PROGRAMS

CR&R offers waste audits for properties seeking to improve their current recycling and waste programs. A CR&R Sustainability Specialist will evaluate your waste stream from the inside out to achieve the most successful recycling program possible. For additional information, please call and ask to speak with your local Sustainability Coordinator.

BULKY ITEMS, ELECTRONIC WASTE, & WHITE GOODS

Items that cannot properly fit in your container, such as a chair or desk, are considered bulky items and require a special pick up. Electronic waste [e-Waste] is anything with a circuit board or battery, such as computers, telephones and small printers. White goods [e.g. refrigerators, freezers] and electronic waste cannot be disposed of in your container. CR&R will collect and properly recycle these items. For pricing, please call customer service.

HAZARDOUS WASTE

Hazardous Wastes are products that are flammable, corrosive, reactive or toxic. They are dangerous to the public and the environment. It is illegal to dispose of hazardous wastes in your CR&R containers. Hazardous wastes must be disposed of properly. For further information about the disposal of hazardous waste, please visit oclandfills.com.

- Bottles and Jars

PLASTICS

- Most Plastics Labeled

[no styrofoam]

RECYCLING LEGISLATION

Assembly Bill 939 [AB 939]

requires jurisdictions to meet diversion goals of 25% by 1995 and 50% by the year 2000 resulting in the implementation of:

- Drop-off recycling programs
- Curbside recycling
- Commercial recycling
- Construction and demolition recycling

Assembly Bill 341 [AB 341]

requires all jurisdictions to meet the diversion goal of 75% by 2020 resulting in properties with 5 or more units to either:

- Participate in a recycling program with their local waste hauler.
- Donate, sell and/or self-haul materials to a recycling facility.

Information about California's properties recycling requirements is available from the California Department of Resources Recycling and Recovery [CalRecycle] at <http://www.calrecycle.ca.gov/recycle/commercial/>.

Assembly Bill 1826 [AB 1826]

requires properties to separate their green waste for recycling. AB 1826 builds on the success of the mandatory commercial recycling program established by AB 341. All properties with 5 or more units must either:

- Participate in a recycling program with their local waste hauler
- Donate, sell and/or self haul materials to an organic recycling facility
- Compost organic materials

Information about organic waste recycling requirements is available from the California Department of Resources Recycling and Recovery [CalRecycle] at <http://www.calrecycle.ca.gov/recycle/commercial/orgamics/>.

RECYCLE PROGRAMS

1

MIXED RECYCLING

This program recycles materials such as: cardboard, mixed paper, plastic, aluminum and glass bottles. They may be mixed together and placed in a recycling bin.

2

CONSTRUCTION AND DEMOLITION

With construction and demolition [C&D] debris making up a large percentage of all material entering California landfills, CR&R can help you to divert as much as possible through a combination of source separation and mixed processing. Prior to starting your project, contact CR&R to find out what options will work best for your site. Planning ahead will assist you in diverting as much material as possible, as cost effectively as possible.

3

CHRISTMAS TREE RECYCLING

CR&R's Annual Christmas Tree and Holiday Greenery Recycling Program is an excellent way for apartment complexes, town homes, and home owners associations to effectively deal with the removal of additional holiday green waste and eliminate overflow problems with your dumpsters. Your property can schedule to have a delivery of a roll-off bin to collect holiday green waste for recycling. The container would remain on site through New Year's with a removal date the following week or later if requested. If the container becomes full prior to the removal date, you may call our Customer Service Department to order an exchange.
